Winter Workshop on Data Science and Machine Learning
26th - 30th December, 2017

Task Sheet - Day 5

Project:

Think about your project idea deeply.

Think about its 'Title'.

Follow slides from Anupama's talk.

Think about context (use recent news articles) and write it.

Formulate some research questions similar to what were formulated in tasks on Day-4.

Explore related work (prior art)

Find if data sets are available or else explore options of using API or web scraping or selenium to collect data yourself.

Perform data analysis.

Perform machine learning.

Document all results in latex document.
